## Download Free Air Masses And Fronts Answer Key

A large body of air with the same characteristics of temperature and moisture content is known as an air mass. An air mass receives its characteristics from the location it forms, known as its source region. Fronts represent the advancing edge of the air mass at ground level. Only low pressure systems have fronts, due to air masses

# Download Free Air Masses And Fronts Answer Key

converging at the low pressure. There will be much more on pressure systems and fronts in a future lesson. Air Mass Classification
