Manual indicates fuel consumption of 8.4 gallons per hour at a given power setting and that the usable fuel capacity is 64 gallons. How many hours endurance do you have in the tanks? 1. Line up the rate arrow ("something per hour") with 8.4 on the outer scale. See Figure 6. 2. Now find 64 on the outer scale. 3.

Please note: This is an estimate based on Pavco's average student completion time. Please be aware that many flight schools will quote the FAA minimum of 40 hours, which is rarely ever attained by the average student. Although these other schools may appear cheaper, we prefer to give you a realistic quote for your flight training goals. Prices may change without notice based on aircraft ...

Welcome to Cessna Learning Online, the world's leading producer of aviation and pilot training videos and FAA Knowledge Test preparation software.

### **Cessna Flight Training**

Perfect E6B, really nice to use and would recommend over the electronic version if preparing for the Instrument written test. For the wind side, I use a dry erase marker (just a few dollars at Staples or Amazon), makes it really easy to use quickly for different questions with various wind configurations.
