### (PDF) Gender inequality in the family setting

Talcott Parsons suggests that the family is the most important agent of socialisation as he argued that the norms and values are learnt first and foremost from the family. Ann Oakley (1981) argues that children are socialised into their gender roles and hence in their gender identities by the family in four ways.

### Family as the most Important Influence on Gender Identity ...

Just as children were expected to be sheltered from the adult world of work, American culture expected men and women to assume distinct gender roles as they prepared for marriage and family life. An ideology of “separate spheres” set the public realm—the world of economic production and political life—apart as a male domain, and the world of consumers and domestic life as a female one.

### Changes in Gender Roles and Family Life | US History I (AY ...

In fact, across the whole study it was found that children whose friendship group emphasises traditional gender roles and stereotypes have lower well-being than others. In contrast, children who chose the relatively gender-neutral trait, ‘working hard at school’, as the most important quality scored highest for well-being.
