### China Safari On The Trail

"China Safari" is one of the first books to look at the influence China is having on the great continent of Africa. In the book, two authors travel separately and different times to various countries and "discover" Chinese influence. The book appears to be a collection of individual articles, so there is very little cohesion.

### China Safari: On the Trail of Beijing's Expansion in ...

I just finished reading "China Safari: on the trail of Beijing's expansion in Africa" (2010) by Serge Michel and Paolo Woods. The amount of facts and figures these two journalist authors were able to pull together on China's growing investment and business activities on the continent is impressive.
