Cod, Mark Kurlansky's third work of nonfiction and winner of the 1999 James Beard Award, is the biography of a single species of fish, but it may as well be a world history with this humble fish as its recurring main character. Cod, it turns out, is the reason Europeans set sail across the Atlantic, and it is the only reason they could.

Cod - Wikipedia

Gadus morhua, or cod, has been an important commercial fish for about six hundred years. As early as 1620, cod fishing was the center of international conflict as various nations attempted to monopolize rich fishing grounds.

Call of Duty is a first-person shooter video game that takes place during the events of World War II. It was released on October 29, 2003, for the PC, published by Activision and developed by Infinity Ward. It is the first installment in the Call of Duty series, but was not as widely distributed until the release of the game Call of Duty: Classic for the Xbox 360 and the
