Neuropsychological Assessment | Executive Functioning

Aspects of the accurate and valid assessment of executive functions. Executive functions are thought to comprise a series of abilities to achieve a goal (Damasio, 1995; Shallice, 1988; Stuss et al., 2005; Stuss & Benson, 1986). Therefore, failure on executive function tests may be due to many reasons, as damage to any component process is difficult to be fully ruled out following the onset of brain lesions or psychopathologies.
