Williams International's Total Assurance Plus (TAP), their maintenance program for FJ33 and FJ44 engines, was given a makeover in 2013. In 2013, they updated their plan and started to include foreign object damage, corrosion and optional service bulletins in their coverage, none of which were covered by previous iterations of the TAP program.

The extension allows all FJ44 models to match the latest FJ44-4 engine overhaul interval of 5,000 hours. Hot section inspection intervals have been extended to 2,500 hours, and can usually be performed on wing. Extension details will be released via a service bulletin and then updated into maintenance manuals.

**CESCOM 10 - Aircraft Status Report**

FJ44 engine overhauls (every 3,500 hours) start at around \$250,000 per engine, but average \$350,000 (plus the cost of rental engines if you want to keep flying during the overhaul). The balance on an airframe or engine maintenance program usually transfers to the aircraft's new owner, increasing sales value.
