The Institute for Functional Medicine | Information and ...

Functional medicine is a form of alternative medicine that encompasses a number of unproven and disproven methods and treatments. Its proponents claim that it focuses on the "root causes" of diseases based on interactions between the environment and the gastrointestinal, endocrine, and immune systems to develop "individualized treatment plans". It has been described as pseudoscience, quackery ...

Functional medicine - Wikipedia

Why Choose the Center for Functional Medicine? Our team has helped countless people lead healthier lives by reducing the burden of living with chronic disease. Our functional medicine program focuses on lifestyle influences, genetics and the environment to determine what is causing your disease or chronic conditions.
