If you've had it running and the lifters are pressurized, remove all pushrods and spark plugs, rotate the engine until a lifter (any one) is at highest lift and install a pushrod in the closed lifter in that cylinder. Lengthen the pushrod until you have no play, mark the adjuster nut and lengthen the pushrod 4 turns.

## **'82 Shovelhead Pushrods. Please HELP!! - Club Chopper Forums**

Insert the valve lifter adjusting tool onto the intake lifter. The metal extension on the tool will engage the oiling slot on the exhaust lifter and hold both lifters in place so they won't rotate as the adjusting nut on the intake is rotated.
