Veeam Backup and Replication Server - THWACK

In Veeam Backup and Replication version 10 a new copy job mode was added called immediate copy. As the name suggests this mode immediately starts the backup copy job as soon as restore points appear in the repository. It also provides the ability to copy SQL Log backups which is not possible with traditional Periodic backup copy.

Backup Copy Job General - Veeam Backup & Replication Best ...

When you run a job, Veeam Backup & Replication checks disk space in the target backup repository and production storage. If the disk space is below a specific value, Veeam Backup & Replication will display a warning message in the job session details. To specify the disk space threshold: From the main menu, select General Options.
