M103 Heavy Tank 1950 74

The M103 Heavy Tank (officially designated 120mm Gun Combat Tank M103, initially T43) was a military vehicle that served in the United States Army and the United States Marine Corps during the Cold War. The last M103s were withdrawn from service in 1974. The M103 was the last heavy tank to be used by the US military as the concept of the main battle tank evolved, making heavy tanks obsolete.

M103 (heavy tank) - Wikipedia

By Kenneth W Estes Kenneth W Estes looks at what may have been the unwanted 'ugly duckling' of the Army, which refrained from naming the M103 alone of all its postwar tanks. The T43 design represented the pinnacle of U.S. Army tank engineering of the late 1940s. The outbreak of war in Korea brought a rush order in Dece

M103 Heavy Tank 1950-74- The Tank Museum

The T43 design represented the pinnacle of U.S. Army tank engineering of the late 1940s. The heavy tank proved fairly popular with its crews, who above all respected the powerful armament it carried. The outbreak of war in Korea brought a rush order in December 1950 which led to a complete production run of 300 vehicles. After 1951, the Marine Corps alone retained confidence in the heavy tank ...

Following the conclusion of World War II the U.S. Army and the U.S.M.C. were in dire need of a heavy tank to keep up with the Soviet armor force. After many years of development and testing the M103 was ready to go into production. Through the development of the M103 there were several variants developed.

M103 Heavy Tank 1950-74 by Kenneth W Estes - Books on ...

Only after recommending improvements, on 26 April 1956 the tank was standardized as the M103 Heavy Tank. Of the 300 T43E1s built, 80 went to the US Army (74 of which were rebuilt to M103 standard), and 220 were accepted by the US Marine Corps, to be used as infantry support, rebuilt to improved M103A1, then M103A2 standards.
