### What is biomedical instrumentation? - Quora

Violence against women (VAW), also known as gender-based violence and sexual and gender-based violence (SGBV), are violent acts primarily or exclusively committed against women or girls. Such violence is often considered a form of hate crime , [3] committed against women or girls specifically because they are female , and can take many forms.

**Violence against women - Wikipedia**

Introduction While gender-based violence (GBV) is not a problem unique to Africa, there is little doubt that the extent of the problem persists more severely on the continent than elsewhere in the world. The World Health Organization (WHO) reports that, in 2013, 35% of women worldwide had experienced either physical or sexual violence in their lifetimes.

**Eradicating Gender Based Violence | AUDA-NEPAD**

GBV-C: GB virus C, a virus first identified in 1995 that is genetically related to the hepatitis C virus but which does not cause hepatitis in humans. The exact role of GBV C in producing disease in humans remains unclear. Infection with GB virus C (GBV-C) may be beneficial to HIV -infected patients.
