Amazon.com: outboard motor covers mercury

If the engine is in the raised position, connect the jumper to the green wire to lower it. And if the motor fails to operate with power applied directly to the blue or green wire, the issue lies with the motor. If the motor operates, then the problem is a lack of power to the motor (faulty solenoid or relay, bad connections, etc.).

Tilt and Trim Troubleshooting for your Outboard - Southern ...

Mercury Marine, based in Wisconsin, has been making Mercury outboard motors in two- and four-stroke versions ranging from 2.5 to 350 horsepower for more than 75 years, though the company's first motors did not have as much horsepower as some of its current motors. If you have a two-stroke outboard motor, you must add oil to the fuel to lubricate the engine.
