Mercury Mariner Outboard Xr6 150

Re: 2004 Mercury XR6 150 HP- Opinions Good/Bad? The 2.5 liter V6 Mercury is the pinnacle of 2 cycle outboard motor design. If its an EFI motor it will start right up and get reasonably good mileage. If its a carb'd motor it will be a little harder to start and simpler to repair if anything ever happens and the mileage still won't be that bad.

Re: Mercury 150 XR6 problems MH,

I have an XR6 with similar problems that i'm working on at this time. I am going to decarbon the motor with a product designed to get rid of "gunk" caused by the 2strokes. You need to have it in the water on a big lake so you can run it wide open after the treatment for about 5 minutes.
