The Physics Hypertextbook is a reaction to the three big problems with textbooks: lack of writer's voice, layouts that reduce readability, and outdated economics. It is a work in progress. Some parts of this book are essentially finished. Some parts are comically underdone. I work on this project in my spare time. You are welcome to use this website as an educational or entertainment tool.

**The Physics Hypertextbook**

In this book we will cover the history of physics. From Newton to Einstein, from Maxwell to Feynman, we will cover everything about the story that crafted modern physics and knowledge of the universe. We will discover secrets and hidden physics stories you didn't know yet. You will learn how physics crafted the modern world, from computers to ...
