Revit has automatically created two levels for you (Level 1 and 2). You need to adjust their heights to the levels in the architectural model, and then you need to create additional levels for the next floors. To modify the heights of level 1 and 2 double click on the height and enter the elevation in millimeters in positive or negative numbers.

Exercise for Structural Design in Revit - Instructions

On the left side of the Revit Architecture window is the Design Bar, which lists the commands available for the currently selected tab. There are 10 tabs: Basics, View, Modelling, Drafting, Rendering, Site, Massing, Room and Area, Structural, and Construction. To see all the tabs, right-click on the Design Bar.
