## **BASIC CALCULUS REFRESHER**

Katherine Buzza, Short Course Coordinator (Narrator): Short courses are courses run through the university schools that range from one day to three months, and they are non-accredited programs, which means that they don't have assessment tasks. They're just courses that are really practical, hands-on, and a great way to build new skills.

## **Short courses - RMIT University**

Is regular calculus THAT much harder than short calculus? I understand that short calculus is intended for students that don't plan on taking higher level math, and I'm an Econ major so that's all I need, but I accidentally signed up for regular calculus.
