Supporting Successful  
Transitions in the Early  
Years Transition is the  
process in which an  
individual encounters a  
move into a new  
environment that  
requires him or her to  
adapt to an unfamiliar  
setting. In the context  
of early childhood  
education, transition  
occurs when a child  
moves from preschool

age of 8, many significant transitions happen in education for children. When parents are aware of these changes, children can adapt more easily to new situations. The first day at school is a significant milestone in the life of every child.

**Transition in Early Childhood Education**  
Research suggests that a more unified

# File Type PDF Transitions In The Early Years

approach to learning should be adopted in both the early childhood education and the primary school systems, and that attention should be given to transition challenges faced by young children as they enter school. The search for a more unified approach has generated different policy options.

# File Type PDF Transitions In The Early Years **Education**

Transition within early years education is a major life event that a child and family go through together.

Currently, educational transition is defined as the process of change that children make from one place or phase of education to overtime, Fabian and Dunlop (2002). Starting school is a huge step in a child's life.
