European immigrants in the United States have largely dwindled in number since 1960, after historically making up the bulk of immigration to the country. Today, immigrants from Eastern Europe account for the largest share of European arrivals, and Europeans overall are much older and more educated than the total foreign- and native-born populations.

European Immigrants in the United States | migrationpolicy.org

The present Indian population, in the United States, totals to more than 3 million, which can be explained from the nearly 147,000 immigrants that India provides to the country on a yearly basis. The model minority stereotype stems from the "non-threatening nature" of the Indian immigrant — a label bestowed by the white counterpart.
